WATER FAN COIL FOR HEATING & COOLING

bravair

Wellness that you feel in the air!

Dynamic Performance

› Automatic fan speed adjustment according to the room temperature
› Special sensor that measures the water temperature and prevents the fan from starting if the water is not hot enough

Advanced Construction

› Robust ergonomic construction
› Washable filter
› Direct access to the device, quick and easy installation

Smart Operation*

› RPM range settings according to the space requirements
› Digital touch screen
› Wi-Fi capability
› Sleep function

BRAVAIR **HOME FCS & JYBG**

Ideal Clima solution for any space

Properly tuned atmosphere, with the touch of a button! Whether facing wet climates and harsh winters or warm summers, Bravair fan coils create the perfect cooling and heating conditions for domestic and professional spaces, every season of the year.

Dynamic in performance, elegant in space

With BLDC fan technology and minimal power consumption, fan coil Bravair offers maximum energy and economic performance in relation to their size. The ergonomic, delicate design of high aesthetics and the quiet operation allows them to be installed in any space.
